

## Integrated Multi - Lane

Iveri's IndiGo multi-lane solution can be integrated into existing till systems to enable integrated payment acceptance.

Till Systems enabling Retailers to have a single view of all transactions (cash and card) across multiple lanes.

*Lower cost  
Implementation*

*Faster Go  
Live*

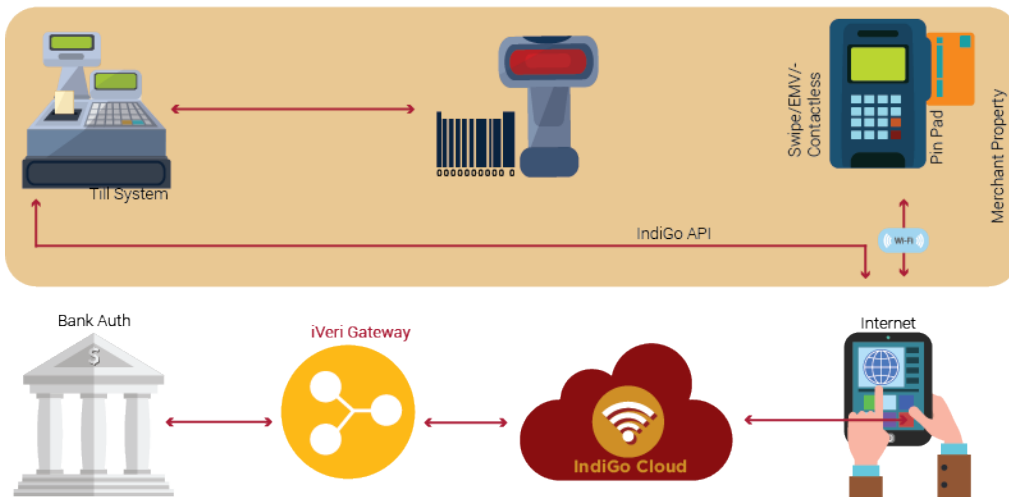

*Fewer hardware  
Requirements*

*Remote  
Access*

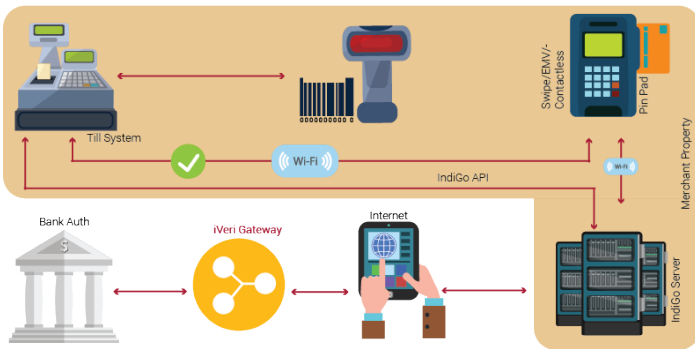

*Data  
Protection*

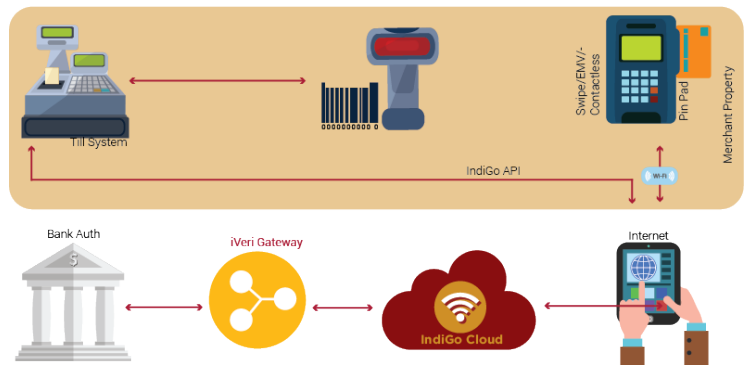

***iVeri - At the Heart of Transactions***

Indigo integrated is a dedicated solution that allows merchants to integrate a payment module into their line of business systems. This is an ideal solution for merchants who process multi-lane transactions, such as large retailers, hotels, etc.
